

USES:

- Aluminum
- Brass
- Copper
- Stainless Steel
- Nickel
- Galvanized Surfaces
- Oxidized Painted Surfaces

We've got you covered

***...If your dull, chalky
metal building could use a restoration.***

X-PROTECT OXIDIZED METAL has excellent UV resistance to retain color and restore old looking, oxidized metal surfaces. In most cases, **X-PROTECT** OXIDIZED METAL provides ease of cleaning and restores most surfaces to life for years to come.

xGen develops and enhances coatings with advanced technology for proven results.

XGEN COATING SYSTEM™

X-RESTORE®
OXIDIZED METAL

CLEAR

Available in Gallon
or Quart Kits

Gallon Kit SKU:

XGNX0005

Quart Kit SKU:

XGNX0004

XGEN COATING SYSTEM™

X-RESTORE®
OXIDIZED METAL

CLEAR

- Leading-edge protection for all decorative non-ferrous metals, including aluminum, copper, brass, bronze, nickel, galvanized surfaces, oxidized painted surfaces and stainless steel.
- Provides a “one-and-done” coating that will prevent metals from corrosion, tarnishing and staining.
- Materials that have been coated will be easy to clean, and will prevent finger prints and streaking from most harsh chemicals (excluding high alkalines).
- Materials can be maintained with pH Neutral cleaners

PRIMARY BENEFITS

- Save effort *and* money:
Saves overall exterior building maintenance
- Enhances the shine of old worn metals to like-new in most cases
- Provides corrosion protection (ASTM B117 – 4,000+ hours tested)
- Resistant to salt-spray and most harsh chemicals
- UV stable and non-yellowing
- Withstand over 2,000 Degrees
- Applied at 0.1-0.3 mil DFT – EPA Compliant
- Glass-like surface repels moisture, oil and dirt

Restores Luster to Faded Paint on Exterior Metal

Restores Luster & Prevents Corrosion on Oxidized Aluminum
